

Interuniversity master's degree in Rehabilitation sciences and Physiotherapy

In the second master year of the Rehabilitation Sciences and Physiotherapy programme, some course units are organised in collaboration with the other Flemish universities in the specialities **Neurological disorders, Internal disorders, Children, Musculoskeletal disorders and Elderly**.

Those course units may require you to enrol as **an interuniversity student** at a university other than your home institution.

Enrolment as an interuniversity student does not affect your tuition fees or learning account. Enrolment at your home institution is the only one that affects your tuition fees or learning account, and it is the **only one that counts towards your degree**.

Schedule of classes and joint learning platform interuniversity subjects

For the subjects in your programme that are not listed below, follow your home institution's timetable and learning platform (Canvas/Toledo/...).

For **interuniversity subjects**, class schedules and course information are collected at 1 place per programme. You can find instructions for registering on the right learning platform on the overviews below.

Classes can take place on campuses of all organising institutions.

Overview of interuniversity subjects

Here you will find an overview of the subjects for each major and at which institution you have to register for them.

Registration procedures and deadlines

The universities for which you need to register as an interuniversity student depend on the courses you take at your home institution.

Institution	registration procedure	Deadline for registration	Deadline registration 2 nd chance session	registration procedure 2 nd chance session
KUL	Follow the procedure for 'interuniversity training' on this site .	9 October 2024 (Deadline for both registration and ISP submission!)*	10 July 2024	https://www.kuleuven.be/english/education/student/examinations/t hird-exam-period Students will be emailed with instructions at KUL email address.
UA	Follow the 'interuniversity training' procedure on this site .	4 October 2024	14 July 2024	Via SisA
UHasselt	You will find a guide to enrolling in this document .	1 October 2024		Via electronic student file
UGent	Follow the procedure on this site .	30 September 2024	/	<i>Students are automatically enrolled if not successful in 1st session</i>
VUB	Follow the procedure on this site .	18 October 2024	/	<i>Students are automatically enrolled if not successful in 1st session</i>

* Registration is in stages. From 16 August you can register at KU Leuven. From 5 September, the ISP (= individual study programme) opens and you can book courses. From 18 September the IER (= individual examination schedule) will be available and only then can you submit your IER and ISP. This last step must be completed before the enrolment deadline of 9 October.

Overview of interuniversity subjects

MASTER OF REHABILITATION SCIENCES AND PHYSIOTHERAPY IN NEUROLOGICAL DISORDERS

Class schedules are collected [on the KUL website](#). Indicate the major under 'make your choice' and then click on 'timetable' and '2nd phase'.

To register for the **joint learning platform 'Master 2 NEURO' on Teams**, follow the steps [in this guide](#).

Name course	Institution and code of the course at that institution
Clinical Neuropsychology in Neurological Rehabilitation	Enrolling at VUB / 4023005FNR
Rehabilitation Technology in Neurological Populations	Registration at KUL / L06F7A and at UHasselt / 2556
Neuroscientific Aspects of Neurological Rehabilitation	Enrolling at KUL / L06F4A
Physiotherapeutic theory and practice for neurological rehabilitation	Enrolling at KUL / L06F6B
Evidence-based practice report	Enrolling at UA / 2609GENRVK
Juridische aspecten en beroepsorganisatie van de kinesitherapie <i>Only for students with home institution KUL or UHasselt</i>	Enrolling at KUL / L04C7B and at UHasselt / 2546

For these course units, you must be enrolled at the institution(s) listed in the right-hand column. If this institution is not your home institution, you have to be enrolled at your home institution for this course **and** [as a guest student at the other institution](#).

! Those who do not register on time as interuniversity students will not be able to participate in the exam!

Overview of interuniversity subjects

MASTER OF REHABILITATION SCIENCES AND PHYSIOTHERAPY IN INTERNAL DISORDERS

Class schedules are collected on the **shared learning platform VICE**. To receive your login details, register using [this form](#).

Name course	Institution and code of the course at that institution
Advanced Methods for Rehabilitation of Cardiovascular Disorders	Enrolling at KUL / L08F5B
Advanced Methods for Rehabilitation of Respiratory Disorders	Enrolling at KUL / L08F6A
Rehabilitation in Critically Ill Patients	Enrolling at KUL / L08F9A
Rehabilitation of Metabolic Disorders	Enrolling at UHasselt / 3925
Rehabilitation of Oncological Disorders	Enrolling at VUB / 4021649FNR
Rehabilitation of Respiratory-Cardiovascular and Metabolic Disorders in Children	Enrolling at UGent / D013233
Capita Selecta in Rehabilitation of Internal Disorders	Enrolling at UA / 2516GENRVK
Juridische aspecten en beroepsorganisatie van de kinesitherapie <i>Only for students with home institution KUL or UHasselt</i>	Enrolling at KUL / L04C7B and at UHasselt / 2546

For these course units, you must be enrolled at the institution in the right-hand column. If this institution is not your home institution, you must be enrolled at your home institution for this course **and** [as a guest student at the other institution](#).

! Those who do not register on time as interuniversity students will not be able to participate in the exam!

Overview of interuniversity subjects

MASTER OF REHABILITATION SCIENCES AND PHYSIOTHERAPY IN PEDIATRIC DISORDERS

Name course	Institution and code of the course at that institution
Neurological aspects of rehabilitation in children	Enrolling at KUL / L06F9B
Orthopedic and biomechanical aspects of rehabilitation in children	Enrolling at KUL / L07F5C
Evidence based clinical reasoning in pediatric rehabilitation: case studies	UHasselt students: enrolment only at UHasselt / 3114 KULeuven students: enrolment only at KULeuven
Rehabilitation of Respiratory-Cardiovascular and Metabolic Disorders in Children*	Enrolling UGent / D013233
Rehabilitation of Mild Motor Problems in Children with Developmental Disorders	Enrolling at KUL / L9X24B
Juridische aspecten en beroepsorganisatie van de kinesitherapie	Enrolling at KUL / L04C7B and at UHasselt / 2546

For these course units, you must be enrolled at the institution(s) listed in the right-hand column. If this institution is not your home institution, you have to be enrolled at your home institution for this course **and as a guest student at the other institution.**

*VICE is the online learning platform used within the major in internal medicine. This course requires that you can be on VICE to get all the information. To receive your login details, register [using this form](#).

! Those who do not register on time as interuniversity students will not be able to participate in the exam!
